

Geotextiles, Geomembranes and Related Products

Editor

G. DEN HOEDT

AKZO Industrial Systems bv, Arnhem

VOLUME 2

*Canals, reservoirs and dams / Waste disposal / Geomembrane properties and testing /
Mechanical damage / Creep and durability / Miscellaneous tests /
Special products and applications*

A.A. BALKEMA / ROTTERDAM / BROOKFIELD / 1990

Table of contents

6. Canals, reservoirs and dams

Engineering geosynthetics in design and construction of Jibiya dam <i>P.Sembenelli</i>	419
A continuous barrier from bottom to crown in hydraulic earthfill structures <i>A.M.Scuero, G.Nuzzo & A.Salvemini</i>	425
Geosynthetics under high stress <i>J.S.Cuniberti</i>	431
Results of seventeen years of using geomembranes in dams and basins <i>E.Alonso, G.Degoutte & H.Girard</i>	437
Use of geosynthetics for the underwater lining of operating canals <i>W.R.Morrison</i>	443
Use of geotextiles and geomembranes in irrigation channels – Brazilian case histories <i>F.T.Montez & L.G.Maroni</i>	449
Rehabilitation of old liner systems in canals <i>G.Heerten & F.List</i>	453
Experimental study of an adhesive-geomembrane system for a dam's metallic facing rehabilitation <i>D.A.Cazzuffi & S.Venesia</i>	457
Application of geomembrane / geotextile composite in impervious lining system of Lijiaqing dam <i>Tongkang Tao, Rennan Tang & Mangui Chen</i>	463
Non-woven bentonite fabrics – A new fibre reinforced mineral liner system <i>C.Scheu, K.Johannßen & F.Saathoff</i>	467
A research of protecting fill dam with geotextile against dispersive damages and its durability <i>Wang Anjiang, Sheng Shoutian & Zhang Bin</i>	473
The use of geocomposites for the rehabilitation of concrete dams <i>A.M.Scuero</i>	474
Use of geomembranes for community development <i>H.A.M.Wichern</i>	475
Geotextiles at Texcoco Lake, Mexico <i>R.Murillo</i>	476
Installing floating covers on intricately shaped reservoirs <i>Richard Taylor</i>	477
Low-cost floating cover reservoirs for developing countries <i>P.L.Davies & P.J.Meyer</i>	478
7. Waste disposal	
Evaluation of flow from landfill leakage detection layers <i>B.A.Gross, R.Bonaparte & J.P.Giroud</i>	481
Geosynthetics for safe waste disposal <i>S.E.Hoekstra & H.C.Berkhout</i>	487

Geosynthetic landfill cap: Laboratory and field tests, design and construction <i>J.P.Giroud, R.H.Swan, Jr., P.J.Richer & P.R.Spooner</i>	493
Long term filter function of nonwoven geotextiles in landfills <i>J.Kisskalt & E.Gartung</i>	499
Water-table pollution control by bituminous geomembranes <i>C.Bienaimé & R.Herment</i>	505
Geomembranes for vertical waste containment sealing <i>H.Brandl</i>	511
Computer evaluation of the stability of composite liners <i>B.Soyez, Ph.Delmas, Ch.Herr & J.C.Berche</i>	517
Geocomposite waste cell capping system for steep slopes <i>Ronald K.Frobel</i>	523
Deformation of geomembranes in landfills due to settlement and other causes <i>Albert Borea</i>	524
Improvements in the geomechanical performance of membrane liners <i>R.Krause</i>	525
Stability of solid waste on geosynthetic lining system <i>J.P.Giroud, J.F.Beech & A.Khatami</i>	526
Liner systems of landfills – Stability of steep slopes <i>G.Heerten & C.Scheu</i>	527
8. Geomembrane properties and testing	
Perforations in P.F.M. liners and the effectiveness of sealings <i>H.Steffen</i>	531
HDPE seam test histories and bonding factors <i>G.M.Hudgins & C.F.Cobb</i>	537
Tests of geomembranes water permeability <i>Y.H.Faure, P.Pierson, O.Artières & F.Goussé</i>	543
Understanding and preventing 'shattering' failures of polyethylene geomembranes <i>Ian D.Peggs, Daniel S.Carlson & Sasha J.Peggs</i>	549
On-site liner-waste compatibility test <i>H.E.Haxo, Jr.</i>	555
Durability of PVC geomembranes and resistance to mechanical puncturing <i>D.Fayoux</i>	561
Sealing systems – Tests on friction and punctiform loading <i>F.Saathoff, S.Kohlhase & F.-F.Zitscher</i>	567
Bursting test: Validation by 2D-tension test and infrared thermography <i>M.P.Luong & C.Bernhard</i>	573
Contribution to the choice of a single tensile test on geomembrane <i>J.P.Gourc, H.Perrier, J.B.Benneton, B.Leclercq</i>	579
Large-scale testing of waste containment sealing under point loading in high pressure testing device <i>Joachim T.Pape & Li Huang</i>	585
Application of geotextiles in combination sealings for the protection of polymeric flexible membranes <i>H.Steffen</i>	589
Examination of the microstructure of geomembranes and seams by light transmission microscopy <i>Ian D.Peggs & Daniel S.Carlson</i>	590
Measure of radionuclides (Cs, Co, Sr ...) diffusion coefficients through a coating of radioactive wastes using epoxy resins <i>G.Beaudoing, C.Signoret & C.de Tassigny</i>	591
The relation of high pressure OIT to oven aging for HDPE liners <i>M.W.Cadwallader</i>	593

Prediction of the thermomechanical behavior of polypropylene modified bitumen geomembranes <i>J.Wiertz, J.M.Rigo & R.Degeimbre</i>	594
9. Mechanical damage	
The installation survivability of geotextiles and geogrids <i>George R.Koerner & Robert M.Koerner</i>	597
Site damage trials on geotextiles <i>G.R.A.Watts & K.C.Brady</i>	603
Influence of weaving structure and coating on the degree of mechanical damage of reinforcing mats and woven geogrids, caused by different fills, during installation <i>G.H.Troost & N.A.Ploeg</i>	609
Summary and evaluation of construction related damage to geotextiles in reinforcing applications <i>John N.Paulson</i>	615
Chemical and mechanical durability of geotextiles <i>J.W.Billing, J.H.Greenwood & G.D.Small</i>	621
Installation problems with geotextiles, an overview of producer's experience with designers and contractors <i>W.Voskamp, H.A.M.Wichern & W.van Wijk</i>	627
Abrasion damage to geotextiles used in gravel road pavements on frost-damaged roads in Sweden <i>Einar Lindh</i>	631
Damage on geotextile during rockfills placing <i>F.Antoine, H.Perrier & G.Druelle</i>	635
Field trials to evaluate geotextile puncture resistance <i>J.H.Dixon & S.Osborn</i>	641
10. Creep and durability	
The creep of geotextiles <i>J.H.Greenwood</i>	645
Designing soil reinforcement with woven geotextiles – The effect of mechanical damage and chemical ageing on the long-term performance of polyester fibres and fabrics <i>D.J.Viezee, W.Voskamp, G.den Hoedt, G.H.Troost & H.M.Schmidt</i>	651
Creep of geotextiles at different temperatures <i>J.Müller-Rochholz & Reinhard Kirschner</i>	657
Creep of geotextiles: Soil reinforcement applications <i>Y.Matichard, B.Leclercq & M.Segouin</i>	661
Plane strain tensile strength and creep of spun-bonded non-wovens <i>H.Miki, Y.Hayashi, K.Yamada, T.Takasago & H.Shido</i>	667
Variation of long term design strength of geosynthetics in temperatures up to 40°C <i>D.I.Bush</i>	673
Creep behavior of geotextiles <i>Braja M.Das</i>	677
Evaluation of creep-rupture properties of geosynthetics <i>D.E.Duvall & P.D.Egan</i>	678
Durability of geotextiles: Pragmatic approach used in France <i>B.Leclercq, M.Schaeffner, J.C.Blivet, Ph.Delmas & Y.Matichard</i>	679
Recent advances in chemical compatibility evaluation of geosynthetic materials <i>P.E.Cassidy, M.Mores, D.J.Kerwick & D.C.Koeck</i>	685
Hydrolysis of HT polyester yarns in water at moderate temperatures <i>P.Risseuw & H.M.Schmidt</i>	691
Evaluation of the life expectancy of polypropylene geotextiles used in bottom protection structures around the Ooster Schelde storm surge barrier: A case study <i>J.D.M.Wisse, C.J.M.Broos & W.H.Boels</i>	697

Conclusions of an extensive BRITE-research programme on ageing <i>Lieva Van Langenhove</i>	703
Physicochemical changes in laboratory-aged orientated polypropylene tapes – The effects of stress and humidity <i>A.Richard Horrocks & Jennifer A.D'Souza</i>	709
An overview of practices used in the United States to determine the compatibility of geosynthetics with chemical waste <i>K.L.Verschoor, D.F.White & R.W.Thomas</i>	715
The weathering of fourteen different geotextiles in temperate, tropical, desert and permafrost conditions <i>P.R.Rankilor</i>	719
Durability testing and prediction of geotextiles and related products <i>H.Schneider</i>	723
Kinetic models for the life prediction in PET hygrothermal ageing: A critical survey <i>J-M.Jailloux & J.Verdu</i>	727
 11. <i>Miscellaneous tests</i>	
Pullout evaluation of geosynthetics in cohesive soils <i>B.R.Christopher & R.R.Berg</i>	731
Direct shear and pullout frictional resistance at the geotextile-mud interface <i>K.Garbulewski</i>	737
Large scale pull-out tests on geotextiles and geogrids <i>E.M.Palmeira & G.W.E.Milligan</i>	743
Observations of photo-elastic pullout tests on geotextiles and geogrids <i>G.W.E.Milligan, D.I.Bush & R.F.Earl</i>	747
Improving design through the use of in-soil testing <i>A.B.Fourie, N.G.Bentley & K.Fabian</i>	753
Super large triaxial compression tests on reinforced sand with high strength geogrid <i>M.Futaki, H.Suzuki & S.Yamato</i>	759
Multiaxial stress rupture and puncture testing of geotextiles <i>G.Werner, G.Pühringer & R.K.Frobel</i>	765
Towards a standard tensile test: Evaluated results of Dutch interlab test programme <i>M.Th.de Groot, G.den Hoedt, A.H.J.Nijhof & W.T.Jansen</i>	771
Testing and application of geotextiles in Hungary <i>T.László, A.Schneider & S.Tombor</i>	777
Certification of geotextiles <i>J.Perfetti & R.Biguet</i>	781
Research of influence of test conditions on the tensile strength of geotextile <i>Wang Anjiang, Zhang Bin & Lu Lihua</i>	782
Strength and survivability evaluation of some Indian geotextiles <i>G.Venkatappa Rao, J.M.Kate & K.K.Gupta</i>	783
Analysis of the flexibility of geotextiles <i>J.Gielly, C.Coulet & B.Lamri</i>	784
Cubical and cylindrical tests for measuring in-soil load-extension properties of geotextiles <i>Jonathan T.H.Wu & Vasken Arabian</i>	785
Design of a fixture for determining the puncture strength of geo-fabrics <i>S.N.Pandey & A.K.Majumder</i>	786
The compressibility of needle-punched non-woven geotextiles <i>H.Novais-Ferreira</i>	787
Efficiency of different reinforcing materials on the bearing capacity of soil <i>M.O.Al-Ashou & M.J.Al-Jebouri</i>	788

Measurement of friction characteristics in contact with geomembranes <i>H.Girard & G.Mathieu</i>	789
Assessment of sand-geotextile friction <i>J.Alenowicz & E.Dembicki</i>	790
Geosynthetics skin-friction: Influence of the equipment on the measure <i>J.P.Gourc, J.Gballou, J.C.Blivet, J.Puig & G.Mathieu</i>	791
Investigation of frictional characteristics between sandy soils and non-woven fabrics <i>R.H.Chen, M.S.Chen & B.A.Gong</i>	792
Interface friction evaluation of some Indian geotextiles <i>G.Venkatappa Rao & J.M.Kate</i>	793
Friction characteristics of polypropylene reinforcing straps in sand and p.f.a. fills <i>T.W.Finlay & A.Bouazza</i>	794
Sand-geotextile interaction by direct shear testing <i>G.A.Athanasopoulos, D.K.Atmatzidis & P.Z.Bousias</i>	795
Direct shear tests: A Brazilian experience <i>D.Vidal, M.A.R.Costalunga & S.H.de Mello Jr.</i>	796
The mechanical effect of inclination of geotextiles in sands <i>R.H.Chen & R.G.Lee</i>	797
Strength comparison of fiber and geomesh reinforced clay <i>Raid R.Al-Omari</i>	798
Anchorage resistance of geogrid reinforced soil systems: Large-scale tests <i>G.E.Bauer, A.O.A.El Halim & Q.Shang</i>	799
Pull-out behaviour – Experimental study <i>Y.Bourdeau, J.P.Gourc, Ph.Gotteland & H.Perrier</i>	800
The effect of grid geometry and aggregate size on the stress transfer mechanism <i>G.E.Bauer & Y.M.Mowafy</i>	801
Geogrid pull-out test in clay <i>M.A.R.Costalunga</i>	802
Effect of compaction moisture contents on pullout of steel geogrids with weathered clay backfill <i>D.T.Bergado, C.B.Cisneros, C.L.Sampaco, M.C.Alfaro & R.Shivashankar</i>	803
12. Special products and applications	
Groundvibration isolation using gas cushions <i>F.De Cock & C.Legrand</i>	807
Contribution of geosynthetics to the damping characteristics of sport grounds <i>J.M.Rigo, J.Wiertz, G.Hunebelle, P.Goblet & M.Gillard</i>	813
The fundamental definition and classification of warp knitted D.S.F. geotextiles for civil engineering end uses <i>S.Raz & P.R.Rankilor</i>	819
Testing of asphalt concrete pavement with fabric interlayer and long term observation <i>I.Yamaoka, H.Miyai, K.Yasuda & T.Hara</i>	825
Computer aided design of geotextiles by functions <i>O.Gicot, J.M.Rigo, K.Smolders, Y.Mathieu, E.Alexandre & C.Legrand</i>	829
Potential for use of natural fibres in geotextile engineering <i>J.N.Mandal & M.V.R.Murti</i>	835
Soil-reinforcement interaction under a joint of buried conduit <i>J.Sohn, W.J.Lee & B.S.Lee</i>	839
Geotextile for improving the bases under joint of precast road pavements <i>V.D.Kazarnovsky, A.G.Polunovsky & N.V.Tabakov</i>	845
Geotextiles for backfilling on deep level mines <i>M.G.Dickson & C.S.Strydom</i>	849

Geotextiles as tie-backs and deep vertical screens <i>Paul G.M.Silence, Eric Van den Eede & Jan Himpe</i>	853
Translucent P.V.C. water-proofing geomembranes for underground works <i>J.L.Mahuet & J.F.Jaby</i>	857
Soil reinforced by waste plastic material <i>C.Coulet, D.Daudon & J.D.Rakotondramanitra</i>	859
Reinforcement with fabrics and geonets <i>Svante Johansson</i>	860
Intelligent earth anchor systems on the basis of heavy duty composite fiber materials <i>Reinhard Wolff & Hans-Joachim Miesslerer</i>	861
Road reinforcement with a geotextile fabric: Prevention of karstic sink holes <i>H.Perrier, P.Ducol, M.Simon & M.Lacroix</i>	862
Application of polymer-grid foundation mattress to buildings on sulfate-contained grounds <i>H.Ochiai, S.Hayashi, J.Otani & K.Matsui</i>	863
Effective applications of natural-fibre geotextiles <i>J.C.Thomson</i>	864
The use of slit film geotextiles in China <i>Liu Zong-Yao</i>	865
Application and research on polyolefine geotextiles <i>Dagang Zhou, Yansheng Wu & Zhiqun Yang</i>	866
Geotextiles and geomembranes – Partners in Australian project development <i>M.A.Sadlier & T.Webb</i>	868
Geosynthetics provide innovative solution to mine establishment problems <i>Neil Finn & Tim Webb</i>	869
Application of hyper-geocomposite to improve the quality of concrete <i>N.Miura, H.Kinosita & S.Yamato</i>	870
20 years' experience with asphalt reinforcements made of polyester fabrics <i>R.Kirschner</i>	871
Results after five years of use of a system of asphalt overlay fabric with bitumen to retard reflective cracking in pavements <i>J.Puig, M.Patier & J.Vecoven</i>	872
Polypropylene grid reinforced asphalt overlays <i>P.J.Cearns & J.H.Dixon</i>	873
Repairing a cracked concrete pavement with a thin asphalt rubber concrete overlay on a geotextile <i>D.Thouret, J.Puig & C.Martin</i>	874
Drainage and waterproofing of cracked roadway <i>P.M.Spillemaecker & J.Puig</i>	875
Geotextiles to prevent reflective cracking in road – Assessment in France, future prospects <i>J.Vecoven, J.P.Benaben, G.Colombier, G.Morel & M.Verhee</i>	876
The effect of compaction technique on asphalt concrete reinforced by a geogrid <i>A.O.A.El Halim & Otto J.Svec</i>	877
Thermal resistance of polypropylene geotextiles used in interlayers retarding the reflective cracking in pavements <i>J.M.Rigo</i>	879
Marine pipeline stabilisation by means of concrete/fabric gravity mats <i>P.J.de Geeter & H.J.Dunnewind</i>	880
Use of steel-reinforced fabric strips for de-bogging of vehicles <i>P.J.de Geeter & H.J.Dunnewind</i>	881
Author index	883
