Cover

Pedro Guedes illustrates the Glass House feature on p.144.
(The weight of paper used for the cover has been reduced in order to meet increased postal charges without passing on the cost to readers.)

137 Letters

138 Books

144 Glass houses

Sean Mulcahy appraises the subject of 'the glass house' (about which there have recently been a number of studies and designs) with particular relation to a public housing design by Greenhill and Jenner, an atrium house by Pedro Guedes, a house study by the RIBA Northern Region, and John Hix's glass house in Cambridge.

149 Irish greenhouse

Harry Bewick lives in a standard garden greenhouse in County Wicklow.

150 Dutch greenhouse

The house was designed and built in Holland out of a greenhouse structure by Tom Hendriksen and his family for themselves.

153 Pillwood House

Holiday home in Cornwall designed by Colquhoun & Miller.

157 Buildings as organisms

Day Chahroudi and Sean Wellesley-Miller describe the work on solar membranes (transparent insulation) which they have been doing at Massachusetts Institute of Technology.

163 Collective design: The good-tempered gas man

This essay by Alison Smithson, is the sixth in the series by A & P Smithson. Previous articles have appeared in *AD* 10/73, 5/74, 6/74, 7/74 and 11/74.

169 Garbage housing, USA

Martin Pawley has argued the case in *AD* 2/71, 2/72 and 12/73 for using discarded consumer containers and packaging for building construction. Now he describes impressive work in that field by Mike Reynolds who works as an architect-constructor in New Mexico.

172 Milton Keynes feedback

The debate continues over Milton Keynes, Britain's largest 'new town'. The Milton Keynes Planning and Design Team presented two reports on the city's progress, in *AD* 6/73 and *AD* 8/74. Feedback from readers has appeared in *AD* 10/74 and *AD* 1/75. Now we publish three more reactions, the concluding one from a group of planners working in the Development Corporation. They include social and economic information which add perspective to the two original progress reports.

179 Urban farm

Justin Wintle describes Fun Art Farm, a project developed in Inner London by Inter-Action (Ed Berman's Community Arts Trust) which includes an indoor riding school for local kids, allotments, workshops, etc.

182 Six years of community involvement

Bruce Bonine describes how he and a group called Community Design Center have built a community centre and park in an inner area of Portland, Oregon.

186 Housing

Philip Pearson discusses the Housing Association movement

186 Round-up

Community school. School for fun. Brighton's West Pier. Conceptual architecture: betrayal or break through? TRADA'S Home Unit System. Docklands: omissions. Solar lens pool. Wind energy for house, luxury health club. Wheelchairs. Rocker seal. A propos Uri Geller. Trade mart. Modular fountain plaza, Guadalajara. Science fiction lectures. Star architects at UIA Congress.

194 Arts

Mexican adventure. That old Mandala. Paradoxical structures.
