Forthcoming in AD

The next AD Profile, HOUSES, PALACES, CITIES guest-edited by Demetri Porphyrios, brings together Leon Krier's collected projects 1974-1984, illustrating the unique contribution and relevance to contemporary architecture and urbanism Krier has made. Organised thematically, the Profile introduces each theme by a polemical manifesto and didactic sketches followed by projects as substantiating case-studies. These include Krier's projects for Berlin-Tegeel, La Villette, Luxembourg and Stockholm, among many others. Complementing Krier's work are analytical and interpretive essays by Colin Rowe, Jaquelin Robertson and Demetri Porphyrios.

AD Profile 53
