

Inter-Union Commission on Geodynamics
Scientific Report No. 16

Afar between Continental and Oceanic Rifting

Proceedings of an International Symposium on the
Afar Region and Related Rift Problems
held in Bad Bergzabern, F. R. Germany
April 1 – 6, 1974
Volume II

sponsored by the Deutsche Forschungsgemeinschaft

Editors

A. PILGER and A. RÖSLER

Geologisches Institut der Technischen Universität Clausthal, Germany

With 93 figures and 7 tables in the text and on 5 folders

E. Schweizerbart'sche Verlagsbuchhandlung
(Nägele u. Obermiller) Stuttgart 1976

Contents

List of Contributors	VIII
Illies, J. H. & Pilger, A.: Preface	XII

General aspects, with special reference to Afar

Pilger, A. & Rösler, A.: Temporal relationships in the tectonic evolution of the Afar Depression (Ethiopia) and the adjacent Afro-Arabian rift system	1
Treuil, M. & Joron, J. L.: Étude géochimique des éléments en traces dans le magmatisme de l'Afar. Implications pétrogénétiques et comparaison avec le magmatisme de l'Islande et de la dorsale medio-atlantique	26
Taieb, M.: Evolution of Plio/Pleistocene sedimentary basin of the central Afar (Awash Valley, Ethiopia).	80

Pre-Tertiary Geology of Ethiopia

Meyer, W., Pilger, A. & Stets, J.: Crystalline basement and Paleozoic	88
Beyth, M.: The geology of central-western Tigre	91
Jordan, R.: The Jurassic of north-eastern Ethiopia	92

East African Rift System south of Afar

Logatchev, N. A.: Magmatism-tectonics relationship during the Kenya rift development and the prime cause of strongly and mildly alkaline volcanic suite formation	96
Kopecký, L.: The structural control of the platform volcanism and cryptoexplosion structures in Africa with respect to Afar	107
Fairhead, J. D.: The regional gravity field of the Eastern Rift, East Africa	113
Swain, C. J.: Some gravity results from the northern Gregory Rift	120
Wohlenberg, J.: The structure of the lithosphere beneath the East African Rift zones from interpretation of Bouguer anomalies	125
Long, R. E.: The deep structure of the East African Rift and its relation to Afar	130
Bram, K. & Schmeling, B. D.: Structure of crust and upper mantle beneath the Western Rift of East Africa, derived from investigations of near earthquakes	138

Red Sea and Gulf of Aden

El-Etr, H. A., Abdallah, A. M. & Rahman, M. A. A.: Dike distribution in the southern part of the Gulf of Suez region, Egypt	144
Faure, H.: Les déformations des côtes et le modèle géodynamique de l'Afar	148
Girdler, R. W. & Styles, P.: The relevance of magnetic anomalies over the southern Red Sea and Gulf of Aden to Afar	156
Scheuch, J.: Preliminary heat flow map of the Red Sea and an attempt to provide a geological-geophysical interpretation	171

Iran

Jung, D., Kürsten, M. O. C. & Tarkian, M.: Post-Mesozoic volcanism in Iran and its relation to the subduction of the Afro-Arabian under the Eurasian plate 175

Förster, H.: Continental drift in Iran in relation to the Afar structures 182

Literature for all articles of this volume 191
