BUILDING TYPES STUDY 521

65 Engineering for Architecture . . . an introduction

66 Technology that inspires and delights in architecture for engineering
In the Washington Metro subway stations, the civil engineering of the vaults is enhanced by lighting that does not call attention to itself, but rather brings out what is intrinsic. In two new Toronto subway stations lighting itself provides glamor, sparkle and fun.

78 Architects are now designing solar-heated and daylighted buildings with assurance, skill and taste
A group of seven new buildings show architects tackling energy conservation as if they really mean it.

96 Round Table: How effective are performance specifications in satisfying users' needs?
They work for many buildings, but not all. A major hangup is the lack of a firm technical base in many environmental areas. And, finally, they are only one tool among many.

104 Gaudi: Master of form and craft
How good a structural engineer was he? Yale's professor Herman Spiegel explores the question.

112 Exploiting materials innovatively for new forms, new structures and new spatial experiences
Architects and engineers find new expressions and cost-saving techniques in steel, concrete, wood and plastics.

ARCHITECTURAL RECORD (Combined with AMERICAN ARCHITECT, ARCHITECTURE and WESTERN ARCHITECT AND ENGINEER) Mid-August 1978, Vol. 164, No. 3. Title® reg. in U.S. Patent Office, copyright© 1978 by McGraw-Hill, Inc. All rights reserved. Copyright not claimed on front cover and editorial four-color separations.
