BUILDING TYPES STUDY 549

47 A vast space frame wraps

New York's convention center like a taut fabric

I. M. Pei's designers and their consulting engineers wrestle with the geometry of a huge space frame and its reflective skin.

58 Architects' and engineers' guide to space frame design

Authority Dr. Paul Gugliotta, an architect and engineer, explains what space frames are, how they work, and how their design can be optimized.

62 A festive space frame shelters outdoor concerts

A 60,000-sq-ft space frame roofs 7,000 at the Poplar Creek Music Theater, designed by Rossen & Neumann. Outdoors, 13,000 sit in front of a long acoustical fence.

68 Identification for a grand hotel

A glittering 160-ft brass space frame for a cafe cantilevers over New York's 42nd Street.

70 Toward workability of the workplace

A landmark survey of 10,000 workers by the architectural research firm BOSTI seeks an airtight case on why they like or dislike their offices

76 Two bridges at Myriad Gardens: a box girder for a conservatory and a steel truss for pedestrians

For downtown Oklahoma City, Conklin & Rossant design a Botanical Bridge to carry trees and hills, and a two-decker footbridge.

80 Sleek module for automated banking

With a determination to go where the customer is, Citibank is installing "space-age" movable modules in shopping centers.

84 SOM's computer approach

How SOM's Chicago office is using the computer for everything from presentation drawings to plans.

90 Round Table: A realistic look at the passive approach—natural means for conserving energy

Nineteen architects, engineers, researchers and manufacturers joined to assess our present expertise and the prospects for broader application of the approach.

Cover: New York Convention & Exposition Center

Architect: I. M. Pei & Partners

Cover design: Jackson, with the technical assistance of Arnold Serchuk and Larry Goldberg
