

© Eduardo Sanchez photo

Hans Hollein's Spanish debut is an atrium for Bank of Santander. Page 82.

**Next month**

Special RECORD feature on "The Future of Design": views by an international array of architects and critics; architecture as seen through the eye of the futuristic film camera; computers' ability to create and present virtual space.

Design portfolio includes buildings by Santiago Calatrava, Alvaro Siza, Keating, Mann Jernigan Rottet, and Davis Brody & Associates.

**Also in October:  
In the Profession**

- Land-use controls and the "taking" issue
- Wood restoration techniques
- The Indicators page
- Computer practice
