Contents

Series Editor's Foreword ix

Preface xi

1 Exploration and the Earth Sciences 1

Types of Exploration 2

Applications of the Geosciences in Exploration 6

Uses of Computers 15

The Rest of the Book 16

2 Requirements for Geoscience Data Analysis 19

Preparing Data for Computer Analysis 19

Characteristics of Spatial Data 24

Basic Data Analysis and Display 37

Using Computers in Remote Locations 45

3 Geochemical Data Analysis 49

The Nature of Geochemical Data 49

Validating Geochemical Data 52

Spatial Analysis and Mapping	58
Multivariate Analysis	60
4 Geophysical Data Analysis	77
Seismic Methods	78
Gravity and Magnetism	83
Radiometric Methods	98
Electrical Methods	99
Electromagnetic Methods	102
Ground-Probing Radar	103
5 Remote Sensing and Image Analysis	105
Data Preparation	107
Data Enhancement	109
Data Analysis	111
Integration of Images and Other Data	113
Image Analysis of Conventional Data	114
6 Analysis of Drillhole Data	119
Data Acquired in Drillholes	120
Graphical Methods for Data Analysis	125
Numerical Procedures to Aid in Interpretation	135
7 Resource Amount Estimation	143
Ore Reserves in Mineral Exploration	145
Estimating Reserves in Petroleum Exploration	159
Coal Reserves	162
Water Resources	163
8 Other Computer Applications	165
Preparation of Reports	165
Spreadsheets	167
Remote Communications	169
Use of Large Databases	170
Geographic Information Systems	177
Artificial Intelligence: Expert Systems	180
Exploration Decision Making	182

Appendix A: Guidelines for Effective Computer Analysis 185

Flexibility	186
Ease of Use	186
Common Forms of Input and Output	187
Generality	187
Ability to Run Concurrent Tasks	187

Appendix B: Selecting a Complex Software System 189

The Need to Computerize	190
Basic Parameters for System Selection	192
Find Out What Is Available	195
Evaluation of Various Systems: Phase I	195
What to Look for in Software	198
Evaluation Phase II: Test Programs on Short-List	200
Making a Choice	201
Guidelines/Rules	202

Appendix C: Additional Information 205

Organizations	205
Special References	208
Meetings	209

Bibliography 211

Journals	211
Books	212
Papers from Technical Journals	217
Published Software	218

Index 221
