

# GEOLOGY AND MAN

## An introduction to applied earth science

**Janet Watson FRS**

*Department of Geology,  
Imperial College of Science and Technology,  
University of London*

**London**  
**GEORGE ALLEN & UNWIN**  
**Boston**                      **Sydney**

# Contents

<b>Preface</b>	page	<b>v</b>	<b>4 Metals and their sources</b>	<b>49</b>
<b>Acknowledgements</b>		<b>vi</b>	4.1 Introduction	49
<b>List of tables</b>		<b>ix</b>	4.2 Mineral exploration	52
			4.3 Ore deposits related to igneous activity	53
			4.4 Ore deposits related to sedimentation, diagenesis and weathering	60
<b>1 The human context</b>		<b>1</b>	4.5 Metamorphism and deformation in relation to mineralisation	69
1.1 Introduction		1	4.6 Hydrothermal vein systems	69
1.2 Resources		1	References	71
1.3 Disturbance of geological equilibria		5		
References		7		
			<b>5 Non-metallic raw materials</b>	<b>72</b>
<b>2 Water</b>		<b>8</b>	5.1 Introduction	72
2.1 Introduction		8	5.2 Materials for construction	72
2.2 Atmosphere-hydrosphere relationships		11	5.3 Ceramics, refractories and fillers	77
2.3 Surface-water-groundwater relationships		13	5.4 Organic chemicals and synthetics	79
2.4 Porosity and permeability		14	5.5 Derivatives of evaporites	79
2.5 Groundwater flow		15	5.6 Phosphorites	81
2.6 Management of water resources		16	5.7 Precious and decorative stones	82
References		22	References	84
			<b>6 Geological aspects of construction work</b>	<b>85</b>
<b>3 Energy resources</b>		<b>23</b>	6.1 Stability of surface regimes	85
3.1 Renewable and non-renewable resources		23	6.2 Effects of instability	86
3.2 Hydroelectric power		23	6.3 Reservoirs and the control of rivers	96
3.3 Geothermal energy		24	6.4 Coastal zones	101
3.4 Nuclear fuels		25	6.5 Deep-sea resources	103
3.5 Fossil fuels: oil and gas		28	6.6 Engineering properties of geological materials	105
3.6 Fossil fuels: the coal series		41	References	107
References		48		

CONTENTS

<b>7 Interaction with the biosphere</b>	<b>page 108</b>	8.3 Sampling of subsurface materials	130
7.1 Geological processes in the biosphere	108	8.4 Geochemical and mineralogical methods	131
7.2 Soils	108	References	133
7.3 Management of soils	112		
7.4 Geochemical factors in plant, animal and human health	114	<b>9 Afterword: man in a geological context</b>	<b>134</b>
7.5 Minerals injurious to health	117		
7.6 Pollution and waste disposal	117	<b>Appendix 1 Ore minerals</b>	<b>142</b>
References	121		
		<b>Index</b>	<b>145</b>
<b>8 Methods of exploration and site investigation</b>	<b>122</b>		
8.1 Geophysical methods	122		
8.2 Remote sensing and photo-interpretation	128
