List of Contributors	vii
Preface	ix
1 Geomorphology and Groundwater: Convergence and Diversification <i>A.G. Brown and C. Bradley</i>	1
2 Groundwater Flow and Quality in an Alluvial Aquifer Recharged from River Bank Infiltration, Torgau Basin, Germany <i>T. Grischek, J. Dehnert, W. Nestler, P. Neitzel and R. Trettin</i>	21
3 Shallow Groundwater Modelling and the Overbank Contribution to a Small Floodplain Bog <i>C. Bradley and A.G. Brown</i>	37
4 Assessing River–Aquifer Interactions within the Hyporheic Zone <i>I.P. Maddock, G.E. Petts, E.C. Evans and M.T. Greenwood</i>	53
5 Landform–Groundwater Interactions in the Gwenlais Karst, South Wales <i>P. Hardwick and J. Gunn</i>	75
6 The Origin and Age of Karstic Depressions in the Darwin–Koolpinyah Area of the Northern Territory of Australia <i>M.J. McFarlane, S. Ringrose, L. Giusti and P.A. Shaw</i>	93
7 Karst and Pseudokarst: An Artificial Distinction? <i>P.L. Younger and J.M. Stunell</i>	121
8 Bils and the Barind Aquifer, Bangladesh <i>K.M. Ahmed and W.G. Burgess</i>	143
9 Groundwater Recharge and Outflow Patterns in a Dunefield of North East Nigeria <i>R.C. Carter</i>	157
10 Hydrogeological Provinces in Central Sudan: Morphostructural and Hydrogeomorphological Controls <i>J.J. Burke</i>	177
Index	209
