

GEOSTATISTICAL SIMULATIONS

Proceedings of
the Geostatistical Simulation Workshop,
Fontainebleau, France, 27–28 May 1993

Edited by

M. ARMSTRONG

*Centre de Géostatistique,
Fontainebleau, France*

and

P. A. DOWD

*Department of Mining and Mineral Engineering,
University of Leeds, U.K.*

KLUWER ACADEMIC PUBLISHERS

DORDRECHT / BOSTON / LONDON

Table of Contents

Introduction	vii
List of Participants	ix
Stochastic Simulation for Imaging Spatial Uncertainty: Comparison and Evaluation of Available Algorithms <i>C.A. Gotway and B.M. Rutherford</i>	1
An Extension of the LU Decomposition Method of Simulation <i>P.A. Dowd and C. Saraç</i>	23
Discussion Following Session No 1 <i>Chairman: J-P. Chilès</i>	37
Stochastic Simulation and Conditioning by Annealing in Reservoir Description <i>B.K. Hegstad, H. Omre, H. Tjelmeland and K. Tyler</i>	43
Conditional Simulation of a Gaussian Random Vector with Non Linear and/or Noisy Observations <i>X. Freulon</i>	57
Discussion Following Session No 2 <i>Chairman: A. Galli</i>	72
Conditional Simulation for Mining: Practical Implementation in an Industrial Environment <i>P.J. Ravenscroft</i>	79
Random Media and Lattice Gas Simulations <i>R. Brémond and D. Jeulin</i>	89
Discussion Following Session No 3 <i>Chairman: M. Armstrong</i>	106
Theory and Practice of Sequential Simulation <i>J.J. Gómez-Hernández and E.F. Cassiraga</i>	111
Discussion Following Session No 4 <i>Chairman: P. Ravenscroft</i>	125

Reminders on the Conditioning Kriging <i>C. de Fouquet</i>	131
Non Conditional Simulation of Stationary Isotropic Multigaussian Random Functions <i>C. Lantuéjoul</i>	147
Discussion Following Session No 5 <i>Chairman: P. Dowd</i>	178
Modelling the Karstic Medium: A Geostatistical Approach <i>O. Jaquet and P.Y. Jeannin</i>	185
Simulating a Geological Lithofacies with Respect to Connectivity Information Using the Truncated Gaussian Model <i>D. Allard</i>	197
Discussion Following Session No 6 <i>Chairman: H. Omre</i>	212
The Pros and Cons of the Truncated Gaussian Method <i>A. Galli, H. Beucher, G. Le Loc'h and B. Doligez</i>	217
Conditional Simulation of Facies Architecture in Fluvial Reservoirs <i>F. Georgsen, T. Egeland, R. Knarud and H. Omre</i>	235
Discussion Following Session No 7 <i>Chairman: C. Daly</i>	251
