

# GEOSTATISTICS FOR THE NEXT CENTURY

An International Forum  
in Honour of Michel David's Contribution  
to Geostatistics, Montreal, 1993

Edited by

**ROUSSOS DIMITRAKOPOULOS**

McGill University,  
Department of Mining and Metallurgical Engineering,  
Montreal, Canada

**KLUWER ACADEMIC PUBLISHERS**

DORDRECHT / BOSTON / LONDON

## TABLE OF CONTENTS / TABLE OF MATIERES

Foreword / Avant-Propos	xi
Michel David	xv
Acknowledgements / Remerciements	xvii
List of Sponsors / Liste des Organismes Parrainant le Colloque	xix
List of Participants / Liste des Participants	xxi

### ***Modelling Practices, Needs, Directions and Concerns / Pratiques, Besoins, Tendances et Problèmes et Matière de Modélisation***

#### *Estimating or Choosing a Geostatistical Model?*

O. Dubrule	3
------------	---

#### *Comment on "Estimating or Choosing a Geostatistical Model?"*

by O. Dubrule M.S. Handcock	15
--------------------------------	----

#### *Reply to "Comment on Estimating or Choosing a Geostatistical Model?"*

by M.S. Handcock O. Dubrule	17
--------------------------------	----

#### *Comparison of CoIK, IK, mIK Performances for Modeling Conditional Probabilities of Categorical Variables*

P. Goovaerts	18
--------------	----

#### *Modeling Uncertainty: Some Conceptual Thoughts*

A.G. Journel	30
--------------	----

#### *Comment on "Modeling Uncertainty: Some Conceptual Thoughts"*

by A.G. Journel R.M. Srivastava	44
------------------------------------	----

#### *The Role of Massive Grade Data Bases in Geostatistical Applications in South African Gold Mines*

D.G. Krige and C.E. Dohm	46
--------------------------	----

#### *Multiple Indicator Kriging of Precious Metals at Silbak Premier Mine, British Columbia*

M.S. Nowak, A.J. Sinclair and A. Randall	55
--	----

#### *Mineral Inventory of a Gold-Bearing Skarn, the Nickel Plate Mine Hedley, British Columbia*

A.J. Sinclair, Z.A. Radlowski and G.F. Raymond	64
--	----

**Information Measures, Integration and Geostatistical Analysis / Mesures du Niveau d'Information, Intégration et Analyse Géostatistique**

<i>Joint Temporal-Spatial Modeling of Concentrations of Hazardous Pollutants in Urban Air</i> B.E. Buxton and A.D. Pate	75
<i>Spatiotemporal Modelling: Covariances and Ordinary Kriging Systems</i> R. Dimitrakopoulos and X. Luo	88
<i>Geostatistics and Data Integration</i> C. Daly and G.W. Verly	94
<i>Modelling in the Presence of Skewed Distributions</i> C. Lemmer	108
<i>Comment on "Modelling in the Presence of Skewed Distributions" by C. Lemmer</i> R.M. Srivastava	120
<i>Reply to "Comment on Modelling in the Presence of Skewed Distributions" by R.M. Srivastava</i> C. Lemmer	122
<i>Exploration of the "Nugget Effect"</i> F.F. Pitard	124
<i>Comments on F. Pitard's "Exploration of the Nugget Effect"</i> D.M. François-Bongarçon	137
<i>A Fractal Correlation Function for Sampling Problems</i> C.D. Rose and R.M. Srivastava	142
<i>Image Compression and Kriging</i> E.A. Yfantis, M. Au and F.S. Makri	156
<i>Comments on "Image Compression and Kriging"</i> P. Delfiner	162
<i>Reply to "Comments on Image Compression and Kriging" by P. Delfiner</i> E.A. Yfantis	168
<b>Conditional Simulations / Simulations Conditionnelles</b>	
<i>The use of Neural Networks for Spatial Simulation</i> P.A. Dowd	173

<i>Joint Conditional Simulations and Flow Modeling</i> A. Gutjahr, B. Bullard and S. Hatch	185
<i>The Method of Projection onto Convex Sets for the Reconstruction of Subsurface Property Maps</i> A. Malinverno and D.J. Rossi	197
<i>Conditional Simulation and the Value of Information</i> A.R. Solow and S.J. Ratick	209
<i>Comment on "Conditional Simulation and the Value of Information" by A.R. Solow and S.J. Ratick</i> R.M. Srivastava	218
<b>Change of Support and Scale Issues / Changements de Support et Problèmes d'Echelle</b>	
<i>Fractals, Multifractals, and Change of Support</i> F.P. Agterberg	223
<i>Change of Scale in Random Media</i> D. Jeulin	235
<i>Direct Conditional Simulation of Block Grades</i> D. Marcotte	245
<i>Change of Support and Transformations</i> D.E. Myers	253
<i>Estimating Recoverable Reserves: Is it Hopeless?</i> M.E. Rossi and H.M. Parker	259
<i>An Annealing Procedure for Honouring Change of Support Statistics in Conditional Simulation</i> R.M. Srivastava	277
<b>Directions in Mining Geostatistics / Tendances de la Géostatistique Minière</b>	
<i>The Need for a Connectivity Index in Mining Geostatistics</i> D. Allard, M. Armstrong and W.J. Kleingeld	293
<i>Is Research in Mining Geostats as Dead as a Dodo?</i> M. Armstrong	303
<i>Comments on "Is Research in Mining Geostats as Dead as a Dodo?" by M. Armstrong</i> P.A. Dowd	313

<i>Testing for Bias Between Drilling Campaigns</i> B.A. Bancroft	315
<i>Improved Sampling Control and Data Gathering for Improved Mineral Inventories and Production Control</i> A.J. Sinclair and M. Vallée	323
<i>Improving Predictions by Studying Reality</i> V. Snowden	330
<b><i>Dealing with Heterogeneity, Uncertainty and Fluid Flow / Le Traitement de l'Hétérogénéité, de l'Incertitude et de la Mécanique des Fluides</i></b>	
<i>Cleopatra's Nose and the Diagrammatic Approach to Flow Modelling in Random Porous Media</i> G. Christakos, C.T. Miller and D. Oliver	341
<i>Geostatistical Analysis of Water Saturation in Heterogeneous Unsaturated Media Under Capillary-Gravity Equilibrium</i> A.J. Desbarats	359
<i>Additive Logratio Estimation of Regionalized Compositional Data: An Application to Calculation of Oil Reserves</i> V. Pawlowsky, R.A. Olea and J.C. Davis	371
<i>Regionalization of some Hydrogeological Processes and Parameters by Means of Geostatistical Methods - Current Status and Requirements</i> M.T. Schafmeister and G. de Marsily	383
<i>Combining Geophysical Data with Geological Prior Knowledge in a Geostatistical Framework: The Example of Cross-Well Tomographic Inversion</i> A. Track, J.H. Meyer, S. Zurquiyah and J.P. Delhomme	393
<b><i>New Methods, Alternative Frameworks and Directions in Modelling / Nouvelles Méthodes, Cadres Alternatifs et Tendances en Matière de Modélisation</i></b>	
<i>Conditional fBm Simulation with Dual Kriging</i> J. Chu and A.G. Journel	407
<i>Algorithmically - Defined Random Function Models</i> C.V. Deutsch	422
<i>Measuring the Uncertainty in Kriging</i> M.S. Handcock	436

<i>"Fuzzy" Geostatistics - An Integration of Qualitative Description into Spatial Analysis</i> M. Kacewics	448
<i>Robust Bayes Linear Prediction of Regionalized Variables</i> J. Pilz	464
<i>A Fractal-Multifractal Approach to Geostatistics</i> C.E. Puente	476
<i>Probability Kriging of Sub-Seismic Fault Throws with Multifractal Distributions</i> R. Wen and R. Sinding-Larsen	488
