

PROCEEDINGS OF THE FIFTH MULTIDISCIPLINARY CONFERENCE ON SINKHOLES
AND THE ENGINEERING AND ENVIRONMENTAL IMPACTS OF KARST
GATLINBURG/TENNESSEE/2-5 APRIL 1995

KARST GEOHAZARDS

ENGINEERING AND ENVIRONMENTAL PROBLEMS IN KARST TERRANE

Edited by

BARRY F. BECK

*P.E. LaMoreaux & Associates, Inc., Oak Ridge, Tennessee
(Formerly: Director of the Florida Sinkhole Research Institute)*

Assisted by

FELICITY M. PEARSON

Sponsored by

P.E. LaMoreaux & Associates, Inc.

and Co-Sponsored by

The National Groundwater Association

The American Society of Civil Engineers, Tennessee Section

Institute for Geotechnology, University of Tennessee

Karst Waters Institute

A.A. BALKEMA/ROTTERDAM/BROOKFIELD/1995

Table of contents

1 Keynote paper

Geotechnical aspects of the design and construction of dams and pressure tunnels in soluble rocks 3

A.H. Merritt

2 Karst geology

Surficial processes and sinkholes

Historical references to karst studies 11

P.E. LaMoreaux

Mechanical impacts of air and water compression in karst conduits 17

J.Chen, G.Thomas & I.Jones

Subsidence hazards due to the dissolution of Permian gypsum in England: Investigation and remediation 23

A.H. Cooper

Subsidence and related features in the Tully Valley, Central New York 31

F.J. Getchell

Sinkhole distribution in Winona County, Minnesota revisited 43

S. Magdalene & E.C. Alexander, Jr

Supai salt karst features: Holbrook Basin, Arizona 53

J.T. Neal

Salt dissolution sinkhole at the Weeks Island, Louisiana, strategic petroleum reserve storage site 61

J.T. Neal & R.E. Myers

Morphology of pseudosinkholes in granitic rocks of the Bastar Craton, Central India 67

Y. Singh

Thresholds for soil transport and the long term stability of sinkholes 73

W.B. White & E.L. White

Sinkhole and buried sinkhole densities and new sinkhole frequencies in karsts of northwest Peninsular 79

Florida

W.L. Wilson

3 Karst hydrogeology	
Hydrogeologic setting of Northern Guam <i>W. Barner</i>	95
Groundwater quality reflect karst development: A case study in central-west Florida <i>J. Chen, G. Thomas & S. Upchurch</i>	103
A spacial-correlation model for assessment of large-areal sinkhole and water quality data <i>J. Chen, G. Thomas & S. Upchurch</i>	111
The complex geophysical-hydrochemical study of karstic springs at Bajza field, Scutari region, Albania <i>P. Haxhui & A. Uçi</i>	117
Prediction and testing of hydraulic parameters in interstratal karst of the Valley and Ridge Province, Pennsylvania <i>M. Jancin & J. Ewart</i>	125
Conceptual model of groundwater flow in a mantled karst aquifer and effects of the epikarst zone <i>H. E. Julian & S. C. Young</i>	131
Evolution of a karstic groundwater system, Cave Hill, Augusta County, Virginia: A multi-disciplinary study <i>E. H. Kastning, III</i>	141
Normalized base-flow discharge of groundwater basins: A useful parameter for estimating recharge area of springs and for recognizing drainage anomalies in karst terranes <i>J. F. Quinlan & J. A. Ray</i>	149
Delineation of the recharge area for Rio Springs, Kentucky: An EPA Demonstration Project in Wellhead (Springhead) protection for karst terranes <i>G. M. Schindel, J. A. Ray & J. F. Quinlan</i>	165
4 Karst geohazards	
Groundwater contamination through sinkholes and the karst surface	
Mass flux of agricultural nonpoint-source pollutants in a conduit-flow-dominated karst aquifer, Logan County, Kentucky <i>J. C. Currens</i>	179
Site investigation, monitoring, and successful landfill closure within a karst terrain <i>P. J. Hall, A. J. McCusker & C. T. Bingham</i>	189
Selection of corridors for power transmission lines and highways through karst terranes <i>E. H. Kastning</i>	195
Private well-water quality of the karst and agricultural dry creek watershed in eastern Iowa – Implications for appropriate management <i>D. B. Wunder & J. K. Johnson</i>	199
5 Karst geohazards	
Transport of groundwater contamination in a karst aquifer	
Contaminant transport mechanisms in karst terrains and implications on remediation <i>W. Barner & K. Uhlman</i>	207

Diffuse flow and DNAPL recovery in the Ste. Genevieve and St. Louis limestones <i>G.O. Chieruzzi, J.J. Duck, J.M. Valesky & R. Markwell</i>	213
Application of fluorescent dye tracing techniques for delineating sinkhole drainage routes, Highway 37 improvement project Lawrence County, Indiana <i>J.A. Duwelius, J.L. Bassett & J.H. Keith</i>	227
The use of geochemical methods in the investigation of hazardous waste sites in covered karst terrain <i>T. Glover, J. Daniel & A. Lonergan</i>	235
Acid mine drainage in karst terranes: Geochemical considerations and field observations <i>I.D. Sasowsky, W.B. White & J.A. Webb</i>	241
Is closure-in-place a suitable remedy for unlined landfills in sinkholes? <i>M. McShea Valentin</i>	249
6 Karst geohazards	
Stormwater drainage and flooding problems	
Sinkhole collapse and ground water contamination problems resulting from storm water drainage wells on karst terrain <i>N.C. Crawford & C.G. Groves</i>	257
Sinkhole treatment to improve water quality and control erosion in southeastern Minnesota <i>A. Kalmes & E. Mohring</i>	265
Modification of highway runoff quality by sinkhole drainage structures, Highway 37 improvement project Lawrence County, Indiana <i>J.H. Keith, J.L. Bassett & J.A. Duwelius</i>	273
Storm-water management and sinkhole occurrence in the Palmyra area, Lebanon County, Pennsylvania <i>W.E. Kochanov</i>	285
Investigation of sinkhole flooding problems in Knoxville, Tennessee <i>A. E. Ogden</i>	291
Management of the discharge quality of highway runoff in karst areas to control impacts to ground water – A review of relevant literature <i>J.B. Stephenson & B.F. Beck</i>	297
7 Karst geohazards	
Case studies on engineering sinkholes	
Karst site remediation grouting <i>J.A. Fischer & J.J. Fischer</i>	325
Maryland Route 31 sinkhole <i>A.D. Martin</i>	331
A model for sinkhole formation on interstate and limited access highways, with suggestions on remediation <i>J.S. Mellett & B.J. Maccarillo</i>	335
Techniques to investigate and remedy sinkholes <i>B.S. Qubain, E.J. Saksinsky & E.G. Aldin</i>	341

Risk and reward: Pipes and sinkholes in East Tennessee <i>J.A. Scarborough</i>	349
8 Foundation considerations and improvements in karst	
Static and seismic stability of residual soils over a bedrock cavity <i>J. Ben-Hassine, P. E. Booth & D. R. Riggs</i>	357
Karst foundation grouting and seepage control at Haig Mill Dam <i>J.A. Beriswill, R.W. Humphries, A.T. McClean & R. L. Kath</i>	363
Drilled pile foundations in porous, pinnacled carbonate rock <i>W.E. Heath</i>	371
The importance of a model in foundation design over deeply-weathered, pinnacled, carbonate bedrock <i>T.C. Siegel & J.J. Belgeri</i>	375
A case history of compaction grouting to improve soft soils over karstic limestone <i>D.C. Stapleton, D. Corso & P. Blakita</i>	383
Cap reinforcement over a sinkhole as part of a landfill closure <i>M.J. Stelmack, T. Sheridan & B.F. Beck</i>	389
Design against collapse of karst caverns <i>T.M. Tharp</i>	397
9 Investigating karst with geophysics	
Subsurface investigation of possible karst conditions at the Jewfish Creek bridge replacement, Key Largo, Florida <i>R. C. Benson, L. Yuhr & B.C. Berkovitz</i>	409
The application of thermal infrared thermography in the identification of submerged springs in Chickamauga Reservoir, Hamilton County, Tennessee <i>F.R. Bogle & K. Loy</i>	415
Application of the natural electric field for detecting karst conduits on Guam <i>A. L. Lange & W.L. Barner</i>	425
Mapping karst solution features by the integrated geophysical method <i>R. Rodriguez</i>	443
10 Planning and investigation for engineering in karst	
Clay over karst: Dealing with construction over an eroded and broken karst surface <i>D. B. Griffin & R. M. Berry</i>	453
Engineering experience with limestone <i>M.A. Iqbal</i>	463
Engineering impacts of karst: Three engineering case studies in Cambrian and Ordovician carbonates of the Valley and Ridge Province <i>R. L. Kath, A.T. McClean, W.R. Sullivan & R.W. Humphries</i>	469

The problems of constructions on karst – The examples from Slovenia <i>S.Šebela & A.Mihevc</i>	475
Paleokarstic features in the Belgian carboniferous limestones – Implications to engineering <i>A.Vergari, Y.Quinif & J.M.Charlet</i>	481
Caves as a geologic hazard: A quantitative analysis from San Salvador Island, Bahamas <i>W.L.Wilson, J.E.Mylroie & J.L.Carew</i>	487
11 Government regulations for karst areas	
A local government approach to mitigating impacts of karst <i>T.S.Devilbiss</i>	499
Status of Kentucky's regulatory programs that address karst <i>K.Harker & J.A.Ray</i>	505
Carbonate rock investigation guidance policy for siting landfills in karst areas in Tennessee <i>J.K.House</i>	511
Government programs and the regulation of dye tracing: The future <i>A.E.Ogden</i>	517
A partnership approach in marketing land use regulations for karst areas <i>C.Swartz & D.P.Drewes</i>	521
Intrinsic limitations of standard criteria and methods for delineation of groundwater-source protection areas (springhead and wellhead protection areas) in carbonate terranes: Critical review, technically-sound resolution of limitations, and case study in a Kentucky karst <i>J.F.Quinlan, J.A.Ray & G.M.Schindel</i>	525
12 Field trip guide book and related papers	
The geology of Cherokee Caverns <i>P.A.Rubin</i>	541
Field trip through East Tennessee karst with emphasis on practical problems <i>H.Moore, G.Michael Clark & J.Whidby</i>	549
Author index	581
