
Precambrian Geology

The Dynamic Evolution of the Continental Crust

Alan M Goodwin
Department of Geology
University of Toronto
Toronto, Canada

ACADEMIC PRESS

Harcourt Brace Jovanovich, Publishers

London San Diego New York Berkeley Boston Sydney Tokyo Toronto

Contents

Preface	XIII
Acknowledgements	XVII
1. Distribution and tectonic setting of Precambrian crust	1
1.1 Introduction	1
1.2 Global distribution	5
1.2.1 Areal proportions	5
1.2.2 Paleomagnetism and continental reconstructions	7
1.3 Radiometric dating	10
1.3.1 Introduction	10
1.3.2 Methods	10
1.4 Orogenies and tectonic cycles	14
1.4.1 Introduction	14
1.4.2 Tectonic framework by platform	15
1.4.3 Cycles in continental growth	31
1.4.4 Models for continental cyclicity	33
1.5 Precambrian classification scheme	33
1.6 Geologic setting by platform	34
1.6.1 Cathaysian Platform	34
1.6.2 Siberian Platform	35
1.6.3 East European Platform	40
1.6.4 Greenland Shield (North American Platform)	46
1.6.5 North American Platform (excluding Greenland Shield)	49
1.6.6 South American Platform	53
1.6.7 African Platform	56
1.6.8 Indian Platform	69
1.6.9 Australian Platform	72
1.6.10 Antarctic Platform	78
2 Archean crust	79
2.1 Introduction	79
2.1.1 Distribution	79
2.1.2 Salient characteristics	79
2.2 Cathaysian Platform	82
2.2.1 Sino-Korean Craton	82
2.2.2 Dabie Uplift	86
2.3 Siberian Platform	86
2.3.1 Aldan Shield	87
2.3.2 Anabar Shield	90
2.3.3 Pericratonic mobile belts	90
2.3.4 Buried basement	91
2.3.5 Median massifs	91
2.4 East European Platform	91
2.4.1 Ukrainian Shield	92
2.4.2 Baltic Shield	92
2.5 Greenland Shield	99
2.5.1 Introduction	99
2.5.2 Southern West Greenland	99
2.5.3 Scottish Shield Fragment (North Atlantic Craton)	109

2.3.2 Anabar Shield	90
2.3.3 Pericratonic mobile belts	90
2.3.4 Buried basement	91
2.3.5 Median massifs	91
2.4 East European Platform	91
2.4.1 Ukrainian Shield	92
2.4.2 Baltic Shield	92
2.5 Greenland Shield	99
2.5.1 Introduction	99
2.5.2 Southern West Greenland	99
2.5.3 Scottish Shield Fragment (North Atlantic Craton)	109

6.2.1	Archean heat flow and geothermal gradients	555
6.2.2	The nature of Archean oceanic crust	556
6.2.3	Granitoid associations	557
6.2.4	Growth rate of continental crust	560
6.2.5	Composition of continental crust	562
6.2.6	High grade metamorphic terrains	563
6.2.7	Mafic dike swarms	565
6.2.8	The expanding earth theory	565
6.3	Exogenous processes and products	567
6.3.1	Sea water composition	567
6.3.2	Uraniferous conglomerates	568
6.3.3	Banded iron formation (BIF)	569
6.3.4	Red-beds and paleosols	571
6.3.5	Glaciogenic and evaporite deposits	571
6.3.6	Oxidation state	572
6.3.7	Biogenesis	573
6.3.8	Sedimentation	575
6.3.9	Phosphorites	577
6.3.10	Mineral deposits	577
6.4	Summary development by platform	578
6.4.1	Cathaysian Platform	578
6.4.2	Siberian Platform	580
6.4.3	East European Platform	582
6.4.4	North American (including Greenland) Platform	585
6.4.5	South American Platform	588
6.4.6	African Platform	591
6.4.7	Indian Platform	594
6.4.8	Australian Platform	596
6.4.9	Antarctic Platform	599
6.4.10	Platform composite	600
6.5	Preferred model for the evolution of the continental crust	603
6.5.1	Introduction	603
6.5.2	Stages of development	606
6.5.3	Concluding statement	607
	References	609
	Index	651
