

Proceedings of the
27th International Geological Congress
Moscow 4-14 August 1984

Volume 5

PRECAMBRIAN GEOLOGY

Professor N. S. BILUDANTIN
General Secretary of the
Organizing Committee

WILEY-INTERSCIENCE PRESS

Utrecht, The Netherlands

1984

CONTENTS

Preface	v
Stratigraphy and geochronology of the Early Precambrian in the Soviet Union N.P. Shcherbak and E.V. Bibikova	1
Isotopic record of major Precambrian events in Australia R.W. Page, M.T. McCulloch and L.P. Black	25
Developmental stages of Precambrian crusts of weathering V.A. Sokolov and K.I. Heiskanen	73
The Proterozoic of North America: some aspects of subdivision and correlation G.M. Young	95
Type sections of the upper earthem of the Proterozoic B.M. Keller, M.A. Semikhatov and N.M. Chumakov	125
The cryptozoic biosphere: its diversity and geological significance P. Cloud	173
Precambrian life in the light of recent data on organic matter in Precambrian sediments S.A. Sidorenko	199

The oldest crust of the Baltic shield: composition, age and genetic features I.V. Bel'kov, I.D. Batiyeva and V.R. Vetrin	215
Heterogeneous structure and development of Archaean lithosphere of the Karelian granite-greenstone terrain	233
Fold belts and plate tectonics in the Precambrian A. Kröner	247
Upper Precambrian fold belts of the south of East Siberia G.L. Mitrofanov, F.V. Nikolsky, A.P. Taskin and P.M. Khrenov	281
Granite-gneiss domes and greenstone belts: common structural paragenesis of Precambrian Baikal mountain area V.S. Fedorovsky	295
Controls on the heterogeneous distribution of metallogenic associations in Archaean greenstone belts with particular reference to the Western Australian shield D.I. Groves and W.D. Batt	315
The Liaojitite suite - a special eugeosyncline facies of the Early Proterozoic Zhang Qiusheng and Li Shouyi	337
