

Rock Mechanics and Engineering

Editor: Xia-Ting Feng

Volume 4: Excavation, Support
and Monitoring

 CRC Press
Taylor & Francis Group
A BALKEMA BOOK

Contents

Engineering Monitoring and Analysis	627
8 Longer-term performance of grouted bolts in different lithologies	627
9 Tunnel support in South African mines	639
10 Design of rockburst support system for deep hard rock mines	669
11 Energy-absorbing rockbolts	687
Foreword	ix
Introduction	xi
Excavation Methods	I
1 Excavation	3
R. GALLER	
2 Mechanics of directional drilling	51
E. DETOURNAY, J. MARCK & L. PERNEDER	
3 Challenges and issues for CO ₂ storage in deep coal seams	87
A.S. RANATHUNGA, P.G. RANJITH & M.S.A. PERERA	
Support Technology	121
4 Drift reinforcement design based on Discrete Fracture Network (DFN) modeling	123
J. HADJIGEORGIOU & M. GRENON	
5 The needs and technologies for measuring the in situ performance of rock bolts	147
A.J.S. SPEARING, T.R. KOSTECKI & K.V. JESSU	
6 Non-deformable support system in swelling and squeezing rocks	179
C.O. AKSOY & G. GULSEV UYAR	
7 On-site visualization for advanced safety management in rock engineering	205
S. AKUTAGAWA	

8	Longer-term performance of grouted bolts in different lithologies in Illinois mines	237
	Y.P. CHUGH, H. GURLEY & W. BELL	
9	Tunnel support in South African mines	257
	L. J. GARDNER	
10	Design of rockburst support systems for deep hard rock mines	279
	B.P. SIMSER	
11	Energy-absorbing rockbolts	311
	C.C. LI	
Monitoring Technology		337
12	Microseismic monitoring technologies for deep mining	339
	R.J. DURRHEIM	
13	Large landslides with seismicity	365
	E. BRÜCKL	
14	Seismic monitoring of geological CO ₂ storage	421
	S. LÜTH & A. LIEBSCHER	
15	Observation-based design of geo-engineering projects with emphasis on optimization of tunnel support systems and excavation sequences	449
	M. SHARIFZADEH, M. GHORBANI & S. YASROBI	
16	Moment tensor evaluation of acoustic emission sources in rock	487
	G. MANTHEI	
17	Fiber-optic monitoring in underground rock engineering	529
	H.F. WANG & J.R. GAGE	
18	A 3D laser scanning technique and its application to rock mechanics and rock engineering	561
	Q. FENG, G. WANG & K. RÖSHOFF	
19	Review of GPS displacement monitoring in rock engineering	593
	N. SHIMIZU & S. NAKASHIMA	

Integrated Engineering Monitoring and Analysis		627
20	Multidisciplinary monitoring of progressive failure processes in brittle rock slopes	629
	S. LOEW, V. GISCHIG, F. GLUEER, R. SEIFERT & J. MOORE	
21	Particle velocities for rockbursts recorded at seismic stations distributed throughout the Karviná coal mining district	663
	K. HOLUB, J. RUŠAJOVÁ & J. HOLEČKO	
22	Rockburst induced ground motion	687
	Z. ZEMBATY	
23	Settlements induced by TBM excavation	701
	S. AVERSA, E. BILOTTA, A.M. FERRERO & M. MIGLIAZZA	
Series page		725
