CONTENTS

Preface

xvii

1 Introduction

1

- Field Investigations 2
 - Stratigraphy 3
 - Geomorphology 3
 - Erosional Surfaces 5
 - Hydrology 7
 - The Soil System 8
- References 9

2 Stratigraphy

10

- Introduction 10
 - Soil Variability 10
 - Data Analysis 11
- Stratigraphic Principles and Concepts 13
 - Definitions 13
 - Superposition 14
 - Relative Dating 15
 - Terraces 17
 - Marine and Glacial Sediments 18
 - Mud Flows 21
 - Geochemical Dating Methods 21
- References and Bibliography 23

3 Textural Characteristics of Soil Materials

25

- Introduction 25
- Terrestrial Environments 26
 - Glacial Drift 27
 - Depositional Environments 28
 - Environments and Landforms 30
 - Eolian Deposits 34
 - Eolian Sands 35

Textural Properties	35
Distribution and Form	36
Loess	39
Texture	39
Other Properties	41
Local Thinning	42
Soils	42
Parna	43
Aerosols	44
Additional Reading	44
References	45
4 Fluvial Systems	48
Introduction	48
Braided Stream Deposits	48
Meandering Stream Deposits	50
Environments	50
Application	56
Map Unit Variability	57
Interpretations for Soils	58
Fans and Associated Deposits	58
Fans	59
Environments	60
Playas	65
Prediction Value	65
Lakes	67
Shore and Shoreline Features	68
Freshwater Lakes Dominated by Sediment Input	68
Saline Lakes	68
Sediment Starved Lakes	69
Lacustrine Sediments and Soils	70
Additional Reading	73
References	73
5 Hillslope Sediments	76
Introduction	76
Distribution and Properties	78
Distribution	78
Properties	79
References	84

6 Transitional Environments and Terrigenous Marine Shelf Sediments	86
Introduction	86
Deltas	86
River-Dominated Deltas	88
Wave- and Tide-Dominated Deltas	88
Estuaries	90
Barriers and Associated Environments	93
Lagoon Deposits	94
Barrier Deposits	96
Transitional Systems and Soils	101
Shoreface and Terrigenous Marine Shelf Sediments	104
Beach and Shoreface	107
Shelves	108
Facies	108
Transgressive-Regressive Facies	109
Summary	110
Additional Reading	111
References	112
7 Volcanic Materials	115
Introduction	115
Kinds of Volcanic Rocks	115
Fragmented Volcanic Rocks	116
Terminology	118
Pyroclastic Deposits	119
Pyroclastic Flow Deposits	119
Pyroclastic Surge Deposits	123
Pyroclastic Fall Deposits	124
Pyroclastic Materials and Soils	124
References	125
8 Saprolite	127
Regolith Properties	127
Areal Distribution and Thickness	128
Characteristics	129
Rate of Formation	133
References	134
9 Geomorphology	136

Introduction	136
Geomorphic Surfaces	136
Definitions	136
Types of Surfaces	137
Constructional Surface Criteria	137
Surface Properties	139
Dating Geomorphic Surfaces	139
Hillslope Nomenclature	141
References	143
10 How Landscapes Evolve	144
Introduction	144
Theories of Landscape Evolution	144
Peneplanation	145
Parallel Slope Retreat	146
Dynamic Equilibrium	147
Backwearing	149
Nine-Element Landscape	149
Applying Landscape Models to Field Research	150
Evolution of a Theoretical Landscape	151
Application	157
References	158
11 Rates of Denudation	159
Methods of Measurement	159
Erosion Rates	159
Caution in Interpretation	160
Late Holocene Erosion Rates	161
General Relationships	161
Small Watershed Studies	164
References	167
12 Streams	169
Introduction	169
Degrading and Aggrading Systems	171
Examples	172
Truncated Ephemeral Channels	173
Interpretation For Soils	174
References	177
13 Hillslope Processes and Mass Movement	179

Introduction	179
Hillslope Erosional Processes	180
Rainfall	181
Slope Factors	182
Slope Shape	182
Computer Modeling of Slope Changes	183
Problems in Quantifying Hillslope Evolution	185
Mass Wasting	185
Types	185
Soil Creep	186
Terracettes	187
Solofluction	187
Earth Flows and Mud Flows	187
Summary	189
Additional Reading	192
References	193
14 Time and Soil Formation	195
Introduction	195
Soil Morphology as a Time Indicator	195
Time—Relative, Effective and Absolute	196
Relative Time	196
Effective Time	197
Soil Age	200
References	202
15 Hydrology	203
Introduction	203
Basic Groundwater Hydrology	204
Flow Nets	206
Complications	210
Near-Surface Hydrology and Soils	213
Hillslope Hydrology	218
Theory	220
Other Factors	22
Application to Soils	223
Summary	227
References	227
Index	231
