16 Bishan-Ang Mo Kio Park in the Asian metropolis
Singapore is an example of integrated infrastructure management in a dense neighbourhood.

Atelier Dreiseitl

Simon Devitt

37 At Auckland's Wynyard Quarter Waterfront, New Zealand, park programme and wetlands for water cleansing are combined with existing industries and harbour activities.

88 Riverside Park South along the west side of Manhattan provides a network of boardwalks and promenades with views to the Hudson River.

Michael Koontz

TCL

43 Water management in the Australian Murray Darling Basin: In 2009, Lake Mokoan was decommissioned to re-establish the Winton Wetlands.

Municipality of Ljubljana

70 In Ljubljana, people get new access to the River Ljubljanica. At the new Žitni bridge, piers were added to connect the river and the town.

Andy Fairbanks

94 The Everglades' Fisheating Creek is the only remaining unengineered, free-flowing water course feeding into Lake Okeechobee.
