# CONTENTS

<i>Lists of editors and contributors</i>	ix
<i>Foreword</i> <i>Ian G. Gass</i>	xi
<b>Introduction to Chapters 1–4</b>	1
1 Exploration of the Solar System <i>Peter W. Francis</i>	3
2 The origin of the Earth <i>Stuart Ross Taylor</i>	25
3 The Earth's interior <i>Don L. Anderson</i>	44
4 Experimental petrology: Earth materials science <i>Peter J. Wyllie</i>	67
<b>Introduction to Chapters 5–8</b>	89
5 Magma generation in the Earth <i>Stephen J. Sparks</i>	91
6 The interpretation of magmatic evolution <i>Keith G. Cox</i>	115
7 Geological time <i>Chris J. Hawkesworth and Peter van Calsteren</i>	132
8 The continents <i>Keith O'Nions</i>	145
<b>Introduction to Chapters 9–12</b>	165
9 Seafloor spreading and plate tectonics <i>Tjeerd H. van Andel</i>	167
10 Plate tectonics and continental drift <i>Alan G. Smith</i>	187
11 Plate tectonics and hydrothermal ore deposits <i>Michael J. Russell</i>	204
12 Metamorphism and fluids <i>Alan B. Thompson</i>	222

	<b>Introduction to Chapters 13–15</b>	249
13	Seismic reflection profiling and the structure of the continental lithosphere <i>Simon L. Klemperer and Carolyn Peddy</i>	251
14	Deformation of the continental crust <i>Philip England</i>	275
15	The formation of sedimentary basins <i>Tony Watts</i>	301
	<b>Introduction to Chapters 16–19</b>	325
16	Clastic sediments <i>Roger G. Walker</i>	327
17	Limestones through time <i>Maurice E. Tucker</i>	347
18	Hydrocarbon source rocks <i>Ralf Littke and Dietrich H. Welte</i>	364
19	Event stratigraphy: a dynamic view of the sedimentary record <i>Adolf Seilacher</i>	375
	<b>Introduction to Chapters 20 and 21</b>	387
20	Sequence stratigraphy: an introduction <i>Chris Wilson</i>	388
21	Intraplate stress and sedimentary basin evolution <i>Sierd Cloetingh</i>	415
	<b>Introduction to Chapters 22 and 23</b>	435
22	The early evolution of life <i>Simon Conway Morris</i>	436
23	Fossils and evolutionary theory <i>Peter W. Skelton</i>	458
	<b>Introduction to Chapters 24 and 25</b>	483
24	Palaeoclimatology <i>Eric J. Barron</i>	485
25	Volcanic hazards <i>Michael R. Rampino</i>	506
	<i>Glossary</i>	523
	<i>Figure acknowledgements</i>	539
	<i>Index</i>	542
