Graduate Level: Macroeconomic Dynamics, Business Cycle Theories, Growth Theories, Sraffian Economics, Monetary Economics, Advanced Macroeconomics, Keynesian Macroeconomics, Computational and Computable Economics (Supervisor of circa 70 Master Dissertations and 5 PhD dissertations).
PhD Level: Macroeconomics, Computational Economics and Computable Economics.

Workshops: Organizer, Contributor and/or Invited Speaker (Last 8 years).

Workshop L'ECONOMIA MONDIALE TRA RECESSIONE E CRESCITA I contributi degli economisti laureati a Modena, 9 Novembre 2009.

Invited Speaker: **Infelicities in the foundations of real business cycle theory**

(Organizer with K. Vela Velupillai) **Nonlinearity, Complexity and Randomness**, Department of Economics/CIFREM, University of Trento, 27/28 October, 2009

Speaker-Contribution: ***Forced vs. Coupled Nonlinear Macrodynamics: Endogenous Complexity and Randomness***

(Organizer with K. Vela Velupillai) **Non-equilibrium Monetary Dynamics**, Department of Economics/CIFREM, University of Trento, 28 May, 2009

Speaker-Contribution: ***Non-equilibrium Economic Dynamics***

(Organizer with K. Vela Velupillai) **Nonlinear Dynamics in Economics and Finance**, Department of Economics/CIFREM, University of Trento 12- 3 March, 2009

Speaker-Contribution: ***Numerical Analysis, Dynamical Systems and Computation In Nonlinear Dynamics***

(Organizer with K. Vela Velupillai) **Agent-based Modelling in Economics and Finance**, Department of Economics/CIFREM, University of Trento, May 19-20, 2008

Speaker-Contribution: *Introductory Talk*

(Organizer with Charlotte Bruun) Artificial Economics. **A Symposium on Agent-Based Computational Methods in Economics and Finance**, Aalborg University, 15-16 September 2006

Invited Lecturer. **NUIG workshop on Computable Macroeconomics**, Department of Economics, University of Galway. 25 November 2005

Main Speaker: *Computable Macroeconomics*

Invited Lectures – One Day Workshop on **Computable Macroeconomics**, Department of Economics/CIFREM, University of Trento, June 1, 2005

Introduction to Turing Machines
Introduction to Endogenous Growth Theory
Computable Endogenous Growth Theory
Computable or Recursive Macroeconomics?

Editorial Appointments 2004-2012

Member, Board of Advisory Editors, **Economia Politica**/ Journal of Analytical and institutional Economics, Il Mulino, Bologna, from 2009.

Member, Editorial Board, **Global & Local Economic Review**, Fondazione Pescarabruzzo. from 2009.

Member, Editorial Board, **New Mathematics and Natural Computation**, World Scientific, from 2010.

(Associate) Editor of the Themed Issue on “*Nonlinearity, Complexity and Randomness*”, **Journal of Economic Surveys**, from November 2009 with expected publication 2011.

The International Library of Critical Writings in Economics: The Elgar Companion to Computable Economics Editor, jointly with Stephen Kinsella & K. Vela Velupillai.

Series Editor (from 2009 and jointly with K. Vela Velupillai), **Routledge Series on Computable and Experimental Economics**.
